- easy access to the cables - dedicated holder for microtubes or cables, placed in an easily accessible place
- HDPE pipes input from two sides
- special mounting brackets and frame for cable tube reserve preventing loss of cables & cable protection before trimming
- the use of prefabricated cables
- adapters with transparent caps
- small dimensions, robust and durable construction
- removable cartridge for convenient splicing near the post

Equipment:

- splice trays 24J
- pigtails yellow (G652.D 2.0 mm)
- or purple (G657.A2 1.6 mm),
- adapters
- organizers
- concrete foundation
- key lock system

Technical parameters:	
Parameters	**Specification**
Number of client-side communication fields	32
Communication fields the line side	4
Maximum number of splice trays	2 x 24 splices
Maximum number of cables	24
Mounting	Buried in the concrete foundation
Number NEPTUN PLC splitters	2
Standard connectors	SC/PC, SC/APC
Dimensions diameter / height. [mm]	225/1480
Height when established in the ground [mm]	720mm
Weight [kg]	5
Material	HDPE (polyethylene flame retardant high-hardness)
Colour	Black

Sample order form:	
Sample Code	**Description**
N-HC36-32HP+4L	Outdoor cabinet HC-36 for single-family houses equipped for 32 HP, 4-port lines
